“ Steve was my(Tom Cadwell) best friend over 50 years. We had a lot of fun growing up together. After I moved to Michigan and got married. We still would keep in touch when we come to Florida. After Steve got sick we lost track of him we have been trying to find him. 2 years ago Tom came to florida for 3 weeks and tried to find him and couldnt get a hold of anyone who knew his address. My feelings are deep for my best friend. I have thought and reminisced of our times together. I will continue to keep him in my heart and thoughts and try to find him in my after life. Walk slow old buddy I'm coming to meet up with you some day. Sending condolences for his family and friends there. Peace loved like a brother. Tom
