“ *Another great “79’er passing on so soon in life. Even though we live miles apart from many of our fellow classmates I hate seeing so many pass on so early in life. My thoughts and Prayers go out to his family.*

“ I went to Canton High with Kip, but didn't really know Skip until I ended up working with that crazy rascal at Chub's Car Wash. Nothing made much since back in those days and it's funny were life takes you. I was lucky enough to be able to help Skip out when he would have to shut down the Car wash rack to make a repair and during those times is when I would get intangled in some rather unique and mind bending conversatipns with Skip. There are very few people that come across your path in life that leave an everlasting impression on you. Skip is one of those folks, he was always analyzing every situation being one step ahead of anyone else, but he did it in a way not to belittle anyone it was just how he was was wired. Kip was one of the most honest straight forward intelligent people that I was lucky enough to befriend yet only for a short time before life took over again and ended up meandering on the long and wonding roard and unfortunately our paths didn't bring us back together in time before Kip was called upon to take the High Road . There is a saying , "Only The Good Die Young." To all of Skip's family and friends Please accept my most sincere condolences and my the Lord bless you all with memories of only the fun and happy times that were spent with Kip.
