“ I remember the made up nursery rhymes, the jokes we shared, the ciggys we'd split, the advice you gave. And I had to find out by my own curiosity.. I love you Gannie and I always will. You were my best friend in a very dark place in my life and gave me the advice to escape it. If only I had known I would've seen you one last time. Tears cannot express how much pain I fee in my heart. Rest easy Gannie. I love you. You and Kody can go and chase them futterflies together forever.
