GA

“ I recently found out Vern hunted near where I hunt in Ga. Before the past hunting season we were both up there working on our leases. We got together at Verns camp for supper and catch up. I brought 2 big ole T- bones to grill. I'm inside getting them ready.... when I step outside Verns getting the grill ready. He then breaks out a flame thrower hooked to a 20# gas cylinder, to which I said “ what the hell you doin?”, he replied, “ lighting the charcoal, this way no lighter fluid taste”. So.... that proves you can teach an old dog new tricks. Thanks Vern, I'm carrying your tradition on. Rest In Peace my friend.
